

## Javelin J430i Card Printer

---

### Performance, Reliability and Expandability in a Dual-sided Card Printer

The Javelin J430i is part of the latest generation of NBS's most popular card printer family. Designed and built for demanding environments, the Javelin J430i delivers reliability and performance for high-volume card production. Expansion options for networking and card encoding give the Javelin J430i the flexibility to meet your specific requirements. Affordable and easy to use, the Javelin J430i a leader in dual-sided performance card printers.

The J430i will personalize a card in full colour, edge-to-edge at 300 dpi resolutions within 30 seconds making it ideal for a wide range of identification purposes – from access control, membership and promotion, to visitor cards and badges. Magnetic stripe encoding is an option and the printers come with a choice of two dual interfaces (USB & Parallel or USB & Serial) for easy integration into any system.

### Innovative and Easy-to-Use

- Easy plug and play USB or USB with Ethernet interface simplifies configuration
- Print head bracket opens wide for easy ribbon access
- 16 character LCD screen for printer status and error reporting messages
- Translucent card cover allows you to see when supplies are running low, and blank cards can be added while printing
- Reject bin holds cards that fail to encode correctly

### Encoding and Network Connectivity Expansion Options

- 3 track magnetic stripe encoding (HiCo/LoCo)
- Contact and contactless smart card encoding capabilities
- Built-in 10/100 Ethernet for printer networking simplifies device management and eliminates the need for third party external device

**High Performance**

- Vibrant, true-to-life colours
- High volume card throughput
- Large capacity card feeder available
- Gentle open & close print head latch

**Flexible**

- 16 MB memory standard
- Optional built-in Ethernet connectivity
- Contact and contactless smart chip encoding options

**Reliable and Flexible**

- Print dual-sided or single-sided
- Self-aligning print head design for consistently uniform print quality i-Series™ functionality

- Automatic colour optimisation and driver configuration
- Enhanced ribbon formulation for optimal colour output
- Ribbon image counter and ribbon low notification

**General Specifications**

- 16-character LCD display
- Windows® drivers for 2000 and XP
- Bi-directional driver communication
- Up to three (3) year printer warranty
- Up to two (2) year (unlimited passes) print head warranty

Designed and built to ISO 9001 certification standards. All specifications are subject to change without notice. Windows is a registered trademark of Microsoft Corporation in the United States and other countries.
